**Re: Build-Out of Midtown Heights, Suite 485**

Dear Alan:

I want to thank you again for the great job you did on our office suite! It was a pleasure working with your construction manager and crew, all of whom were extremely professional and competent. My biggest fear any time I have a big contracting job is being surprised by budget overages or "change orders" for things that should have been part of the bid. Not only did you stick to the budget, your crew went above and beyond the call of duty, with no complaints or any additional charges. It is rare to find a truly honest, competent contractor who takes a personal interest in the job and does it right. Thank you again for being that contractor!

Sincerely,

Chad Henderson
