

7-2-13

Alan,

I figured it was about time I sing Lawton's praises "formally" so he gets the credit deserved for his work on my townhome in Skyline at Edgewood.

There are still some small projects in the works to "finalize" my home, but thus far I have been very pleased with Cablik, especially Lawton. I'm confident that everything will continue to go above my expectations. Lawton really has been wonderful to work with and a great advocate for the buyer (me) while working with the contractors, but an even better representative for Cablik.

He's a strong asset for Cablik, it's so impressive to see such a hard working young man with so much knowledge in the "building world". His dedication and professionalism are a good reflection on any organization. Thank you for everything, glad you guys are neighbors and look forward to future projects.

Danielle
